

EUROPEAN ACADEMY OF NEUROLOGY – ABOLISHING PAIN

Martin Rakuša^{1,2}

¹European Academy of Neurology, Breite Gasse 4/7, 1070 Vienna, Austria

²Department of Neurology, University Medical Centre Maribor, Maribor, Slovenia

Background

European Academy of Neurology is dedicated to increase and share neurological excellence in Europe and worldwide with the best clinicians, educators, and scientists, improving health and making better life for the patients. Our activities are focused on spreading knowledge, producing guidelines, publishing journal and a newsletter, and providing resources on our web page.

Knowledge

- **Scientific Panel on Pain**
- Research training or experience fellowships up to 12 months
- Network of specialised clinics around the Europe

Guidelines

- 5 out of 102 guidelines
- **The latest guidelines on trigeminal neuralgia were published in 2019.**
- included in the European Handbook of Neurological Management.

Congress

- Posters
- Oral presentations
- Teaching courses
- Focused workshops
- Symposia
- **11% of all activities were related to pain at 5th congress in Oslo this year**
- Higher number next year at 6th EAN Congress in Paris.

Media

- **European Journal of Neurology**
- Newsletter
- **Web page**
- Online resources
- Online lectures
- Online presentation

Cooperation

- Strong cooperation with other professional organisations (**EFIC, NeuPSIG**)
- We endorsed a new **European Pain Forum.**
- We collaborate with patients organisations – **EFNA.**

Conclusion

We believe that advancing the cause of neurology is best done through collaboration. All described activities strengthen our mutual goal – abolishing pain and helping patients in Europe and world wide.
