Current situation – basic training

Nursing: Italy - 42.7% curricula had pain-related content (Latina et al 2018)

Physiotherapy: Finland – 74 hrs (21-103 hrs) (Ehrström et al 2018)

Medicine: 0.2% (12 hours) (Briggs et al 2015)

UK Healthcare professionals (Briggs et al 2011)

Best Practice

- Formally in curricula and assessed
- Competency-based (skills, knowledge and attitude)
- Work together...learn together - interprofessional education

☐ SIP France aims at **implementing the SIP's objectives** at the national level

☐ MOBILISATION OF SEVERAL ACTORS

- **The French Pain Society** (SFETD) : scientific support, in charge of coordinating the project
- **Grünenthal France**: institutional support (sponsor)
- **A scientific committee** : 11 societies, patient and healthcare professional organizations, in charge of drafting a position paper

☐ FOCUS on

☐ Care pathways for patients in pain

☐ Pain and disability

THREE STEPS OF THE PROJECT

- ❑ Realization of a **POSITION PAPER**, supported by the members of the Scientific Committee, to address policy makers for mobilization against pain in France, and to **raise awareness**
- ❑ Organization of a **NATIONAL CONFERENCE** (October 24th 2018)
2 REGIONAL SEMINARS (2019) + 2020
to promote the position paper and its recommendations
- ❑ Meetings with **key policy makers** at the national level to discuss the proposals of the position paper

FOCUS ON 5 ISSUES : Integration, prevention, protection, participation and **mobilisation**

MOBILISATION

- ❑ Enhance Pain assessment and care, **education and training**, for all involved healthcare professionals, especially in **vulnerable** populations, with a common core of knowledge
 - ❑ Strengthen the role and functioning of **care networks and pathways**, interprofessional coordinations and coordination between hospital and ambulatory care
 - ❑ Call for giving new momentum to an efficient policy **in the fight against pain**
 - ❑ Recognize Pain **as a crucial health issue, requiring a reinforced care pathway**
 - ❑ Recognize the Fight against pain as a **priority of French Health Policy** for the five-year term and beyond
 - ❑ Develop interactions **between the national platform and the public at national and regional level**
-
