

Pain Alliance in the Netherlands

The Pain Alliance in the Netherlands (PA!N) is a powerful partnership of currently 11 professional associations and the patient organization (Pijnpatiënten naar één stem)

PA!N aims at improving health care and quality of life for people with chronic pain. PA!N brings together all parties in the Netherlands that are involved in the prevention, diagnosis and treatment of pain. This makes PA!N the contact point in the Netherlands for the multidimensional approach to pain.

Many Dutch people suffer from chronic pain

Of Dutch people suffers from chronic pain; all ages

More than 2 years

Of Dutch people has moderate to severe pain
